## Mongolia Motorcycle Tours - Wild Eastern Mongolia

Eastern Mongolia is where heaven and earth fuse into one part - a boundless blue sky colliding with an equally limitless sea of green. The occasional wooden shack or Gher reminds you that humans do inhabit this enormous landscape, but for the most part it's an unspoilt amphitheater of bounding gazelle, scurrying marmots and tracks that squiggle endlessly into the distance.

This is one of the world's last great unharmed grassland ecosystems, and you can imagine yourself riding through this stunning landscape. The other major feature of the region is the Khan Khentii Mountains. This was the homeland of Temujin, the embattled boy who grew up to become ChingisKhaan. Riding through this area you can visit places associated with the world's greatest conqueror. The final frontier, this is by far the remotest, and least visited part of Mongolia, and a venture into its depths is a challenge even to the most experienced of travelers.
